CABINET

- Heavy Gauge, Textured, White Powder Coated Cabinet

VENTING

- Direct Vent Appliance - Uses No Indoor Air For Combustion

WARRANTY

- Exceptional 10-Year Warranty On The Heat Exchanger
- 5 Years On All Other Parts

SAFETY AND CONVENIENCE

You no longer have to risk changes in hot water temperatures in your home. Therefore, no more scalding. You simply set your kitchen control panel for the high temperature you need there, the master bath for your comfort, and your childrens bath at a safe temperature. Just imagine... never ending hot water at the exact temperature you desire.

ROOM BY ROOM CONTROL

With old technology water tanks you can only set the temperature once, at the highest setting required anywhere in your home. This can be dangerous, particularly for young and elderly people. The Continuum Hot Water System with our exclusive control panels will guarantee you the right and safe temperature.

LOWERS YOUR UTILITY BILLS

Having an old technology hot water tank means you have to heat water 24 hours a day whether you need hot water or not. With the advanced technology in the Continuum Hot Water Heating System, you heat water only when you use it, only the amount you use, and only to the temperature you select. Just imagine the savings on your utility bills!

FOR MORE INFORMATION

The Continuum Water Heating System can make your home a safer and more efficient home. You can provide it with the luxury of controllable endless hot water. For more information contact Rinnai at: 1.800.621.9419 or on the web at: www.rinnaiamerica.com
